PROFILE

Engineer focused on web platforms, backend systems and automation. 7+ years building reliable products with TypeScript, Node.js, React and cloud infrastructure.

CORE SKILLS

Languages

TypeScript, JavaScript, Python, SQL

Backend

Node.js, NestJS, REST, GraphQL

Frontend

React, Next.js, CSS

Data

PostgreSQL, MySQL, Redis

Infra

Docker, AWS, CI/CD

EDUCATION

B.Sc. Computer Science

Federal Institute of Technology
2014 — 2018

LANGUAGES

Portuguese — Native

English — Advanced

EXPERIENCE

Senior Software Engineer

2023 — Present

Northstar Technologies

São Paulo, Brazil

- Designed event-driven services supporting 2M+ monthly API requests.
- Reduced document-processing latency by 42% with asynchronous workers and Redis.
- Built CI/CD and integration testing across 14 production services.

Software Engineer

2020 — 2022

Atlas Digital

Campinas, Brazil

- Built React applications and REST APIs for 8,000+ business users.
- Reduced critical API latency by 35% through PostgreSQL optimization and caching.

Junior Software Developer

2018 — 2020

Orbit Systems

São Paulo, Brazil

- Developed internal applications with JavaScript, PHP and SQL.
- Automated workflows saving approximately 15 hours of manual work per week.

SELECTED PROJECTS

Workflow Intelligence Platform

Multi-tenant operational analytics with event processing, dashboards and alerts.

TypeScript

NestJS

React

Redis

Document Automation Engine

Template-driven generation platform for recurring business documents.

Node.js

TypeScript

S3
