

Lucas Andrade

FULL STACK SOFTWARE ENGINEER

São Paulo, Brazil · lucas.andrade@example.com · +55 11 99999-0000 · github.com/example · linkedin.com/in/example

PROFILE

Full Stack Software Engineer with 7+ years designing web platforms, backend services and automation systems. Specialized in TypeScript, Node.js, React, distributed systems and performance engineering.

EXPERIENCE

Senior Software Engineer 2023 — Present

Northstar Technologies

- Designed event-driven services supporting 2M+ monthly API requests.
- Reduced processing time 42% by introducing asynchronous workers and Redis.
- Standardized CI/CD and integration testing across 14 production services.
- Improved operational workflows in partnership with product and design.

Software Engineer 2020 — 2022

Atlas Digital

- Built React applications and REST APIs serving 8,000+ business users.
- Migrated legacy endpoints to modular Node.js services.
- Reduced critical API latency 35% through query optimization and caching.

Junior Software Developer 2018 — 2020

Orbit Systems

- Developed business applications with JavaScript, PHP and SQL.
- Automated recurring processes and removed approximately 15 hours of weekly manual work.

TECHNICAL EXPERTISE

Languages TypeScript · JavaScript · Python · Java · SQL
Backend Node.js · NestJS · Express · REST APIs · GraphQL
Frontend React · Next.js · HTML · CSS · Accessibility
Data PostgreSQL · MySQL · Redis · Elasticsearch
Infrastructure Docker · AWS · GitHub Actions · Linux · CI/CD
Architecture Distributed systems · Event-driven architecture · Multi-tenant platforms · Async processing

ENGINEERING PROJECTS

Workflow Intelligence Platform 2025

Multi-tenant analytics platform combining event processing, dashboards and automated alerts. TypeScript · NestJS · React · PostgreSQL · Redis

Document Automation Engine 2024

Template-driven document generation platform for recurring business workflows. Node.js · TypeScript · S3 · Docker

Developer Observability Toolkit 2023

Internal service health and deployment diagnostics toolkit. Node.js · OpenTelemetry · Docker · Grafana

EDUCATION

B.Sc. in Computer Science

Federal Institute of Technology · 2014
— 2018

CERTIFICATIONS

AWS Certified Developer — Associate · 2025
Professional Scrum Master I · 2024

LANGUAGES

Portuguese — Native
English — Advanced
